

2-N-1 Reader Subassembly Part Numbers

During the month of December 2014, Nortek Security & Control began shipping the 2-N-1 Proximity Reader. In addition to selling the 2-N-1 reader as a solo product, we have also included the 2-N-1ProxHAF (which works for either mullion or single-gang mount use) with our bundled e3-Series systems.

We have since had several requests from customers for replacement plastic covers, which dealers wanted to use in retrofitting legacy readers or for replacements, due to loss or damage.

This Product Bulletin outlines the part numbers for the two plastic pieces that make up the 2-N-1 Proximity Reader.

Note: The below plastics are compatible with the P300 Series from Nortek Security & Control (Linear) and Farpointe, and will work to retrofit most legacy P300 Series product installed.

MODEL NUMBER	PART NUMBER	DESCRIPTION
2-1MCOVER	620-100229-001	2-N-1 Mullion Mount Plastic Cover (Top Cover)
2-1SCOVER	620-100230-001	2-N-1 Single-Gang Box Mount Plastic Cover (Base Cover)
