You need to be logged into the computer as an Administrator before starting to create this connection.

You first need to create a modem connection using a cable between 2 computers by doing the following:

1. Go to **Setup** and click on **Control Panel**.

2. Click on **Add a Device** under **Hardware and Sound**.
3. Click on **Device Manager** under Devices and Printers.

4. Click on **Modems** and select **Action**.
5. **Select Add Legacy Hardware.**

6. **Click Next.**
7. Select **Install the hardware that I manually select from a list.**
   Click **Next**.

8. Highlight **Modems.**
   Click **Next**.
9. Select **Don't detect my modem; I will select it from a list.**
   Click **Next**.

10. Highlight **Communication cable between two computers.**
    Click **Next**.
11. Click on **Selected ports** and then highlight an available COM port. Click **Next**.

12. Click **Finish**.

Now you need to create the AXNET Connection by doing the following:
You may have to do the following steps twice to get the connection to work properly.
1. Go to **SETTINGS**.
2. Click on **Control Panel**.

3. **Click on Connect to the Internet** under Network and Internet.
4. Click on **Dial-up**

5. Select **Communication cable between two computers**.

6. Enter 1 for the Phone Number.
7. Enter Linear as the User Name.
8. Enter 123456 as the Password.
9. Enter the Connection Name.
10. Click **Connect**.

11. Click **Skip**.
12. Click **Close**.

13. Select **View Network Status and Tasks**.
14. Select **Change adapter Settings**.

15. Right click on the AXNET Direct Connection.
16. Select **Create shortcut**.

17. Click **Yes**.

18. Right click on the AXNET Direct Connection.
19. Select **Properties**.

20. In the dialer, highlight **Communication cable between two computers**
    Delete the phone number.
    Click **Configure**.
21. Set the Maximum speed to 38400 and uncheck all Hardware features. Click OK.

Note: All screen shots are taken from Windows 8 Enterprise Edition. Your screens may be different depending on the version of Windows 8 you have installed.
